

Manage Multiple Waitlists

Netpage Unlimited is an enterprise tool for managing multiple waitlist and messaging guests and staff instantly.

Improve The Guest Experience with a Centralized Paging System

Perfect for large organizations to notify waiting guests or contact staff quickly, NetPage Unlimited offers the scale needed. Manage multiple wait lists across many departments or services, each with large numbers of guests or staff to communicate with. Message via an LRS pager, SMS text, or email.

Manage Many Guests with Ease

Create one or many visitor waitlists that can be viewed and updated by several people in your organization. Add, notify, and update visitor status from any computer.

Locate and Notify Staff

Notify staff by paging or texting them instantly – when visitors arrive, when help is needed, or when a task needs tending to.

Effective Communication

Message staff across buildings, manage waitlists systems and guest management apps. Message staff across locations or anyone on the same corporate network.

HOW TO USE IT:

- 1 **On Its Own**
Use NPU as an offline waitlist tool. Create one or many lists.
- 2 **With LRS Pagers**
Page guests or staff with an LRS Pager
- 3 **With Mobile Phones**
Send SMS text notifications to guest or staff mobile phones.
